Education

ArtCenter College of Design | Pasadena, CA Fall 2021 - Graduation anticipated 2025
Bachelor of Science in Product Design

Branksome Hall Asia | Jeju, South Korea Fall 2018 - Spring 2021
International Baccalaureate: High Honor

Field of Interest

Energetic and open-minded, I thrive on exploring new activities. Passionate about modeling products and crafting designs in company-specific languages, I specialize in digital software, especially Adobe programs. My creative spirit embraces risk, making every project an exciting journey.

Featured Projects

Vista

Product Design 4, Fall 2023
Vista is a product branch for Patagonia, a sustainable amenity kit that redefines the luxury in hospitality. With eco-friendly designs, replaceable components, and a focus on waste reduction, the collection aim for a greener future.

Tambourins' Fragrance Discovery Kit

Package Design 1, Summer 2023
This starter kit appeals to scent enthusiasts, blending seamlessly with Tambourins' chic identity. Aimed at expanding from South Korea to the US, it strategically taps into a broader audience.

Over the Moon

Product Design 1, Fall 2021
Moon Lamp, eco-friendly and crafted from accessible materials like paper and cardboard. Its flat-pack design minimizes materials and space, embodying sustainability.
